Michele Mancini

IMPORTANT: Stay connected to the internet until the update process has been completed (see important note in step 3 below if using your phone as a hot spot). You may be prompted to restart several times. Make sure all the updates have completed. Repeat the following steps until you get a message "**You're up to date**" – see step 5.

The Procedures:

Settinas

To stay up to date, select the **Start up** button > **Settings** \bigotimes > **Update & Security** \bigcirc > **Windows Update** \bigcirc , and then select **Check for updates**.

- 1. After completing the steps shown above, the screen shown below will appear.
- 2. Wait for any automatic updates to download and install.

3. If a "feature" updates are available for your device, it will appear separately on the Windows Update page as **Optional**. To install it, select **Download and install now**. As shown above.

IMPORTANT: If you are using your phone as a hot spot for internet access and have a limited data plan, **do not** complete the optional feature updates as they are large and take more time.

4. Instructions to **restart** appear. As shown below:

	Windows Update
	*Some settings are managed by your organization View configured update policies
	Restart required Your device will restart outside of active hours.
	2020-02 Cumulative Update for .NET Framework 3.5 and 4.8 for Windows 10 Version 1909 for x64 (KB4537572) Status: Pending restart
	Restart now Schedule the restart
	Optional updates available
	• 2020-03 Cumulative Update for Windows 10 Version 1909 for x64-based Systems (KB4541335)
	Download and install

5. **Repeat** the process again from the beginning until you receive the message as shown here:

	Windows Update
