

Helping Students Succeed with LiveTutor

Stuck on a concept? Need extra help from a teacher?
Need more explanation?

Pearson is pleased to offer valuable academic support to students through LiveTutor. LiveTutor offers real-time assistance to help students learn in a way that works best for them.

Staffed by certified teachers and tutors, LiveTutor is here to help students better understand concepts, lessons, and assignments*—all from the convenience of home. LiveTutor supports K–5 students in the Elementary room and 6–12 students by subject in math, science, social studies, and English.

What are Students Saying?

- “I found this session very helpful and I left feeling that I had a better knowledge of the subjects I came to talk about.”
- “Really helped me understand!”
- “She made me feel better and really simplified it for me.”

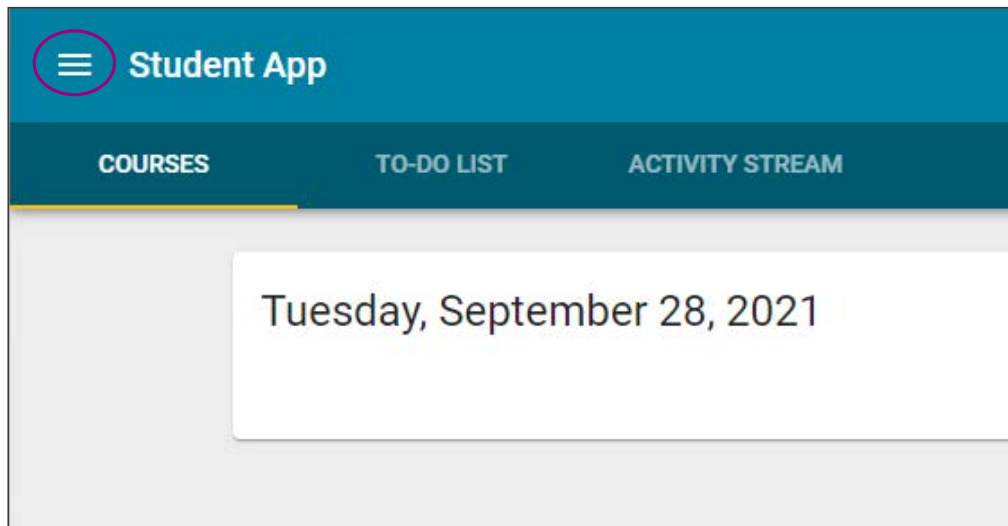

**The objective of LiveTutor is to support students' learning in their courses and therefore the focus of tutoring sessions is on helping students with specific problems or concepts from a lesson. Please note that Tutors are not able help directly with tests, quizzes, quick checks, discussions, or portfolios—but we encourage your students to bring targeted questions that will help them complete these tasks independently.*
